

Medibox Medical Cabinet

The Dri-Sil Medibox is used in Nursing and residential homes, Hospitals and schools as a means of securing medicines and drugs.

The Cabinet is manufactured from 1.2mm thick mild steel, and is attractively powder coated white for added durability.

There are two adjustable shelves within the unit and the door opens downwards to form a useful dispensing surface.

The Medibox is easily and securely fitted to a flat surface by means of plugs & screws provided. Only basic skills are necessary.

A Cam lock with removable key ensures security.
